

## Adopt-A-Room Program

Our adopt-A-Room program is a one year commitment. When you commit to one year you will be responsible to furnish your room three to four times during the year. When families move into My Father's House we want them to feel welcome. Providing the new, needed items is a wonderful way to show them we care. When a family leaves the shelter and sets up their own apartment they take all the items below with them to help them with their fresh start. The room you adopt will have a plaque on the wall outside the room honoring you or your business. Furniture items do not have to be replaced because they are permanent in the apartment rooms. The average cost for these items is \$400-\$500 depending on your shopping style.
